- Continuous dimmable
- Rotatable light stick
- Magnets for attaching to metallic objects such as rack drawers; music stands etc.
- Rechargeable battery
- Hand strap for convenient and safe transportation
- USB C connector for charging the battery
- Battery runtime up to 12 hrs

DESCRIPTION

With the LED STICK 1 B, Gravity® sheds light into the dark.

This compact light bar helps you to generate light wherever you need thanks to the integrated rechargeable battery.

You can choose from two different whites (cool and warm white), switch and continuously dim them as desired.

Another absolute highlight are the magnets. The led light bar is equipped with four strong magnets at the bottom, which allow you to attach the lamp to any metal object (e.g. racks, music stands, cases, etc.). This way you don't need to screw the lamp.

And there is more to it than that. Thanks to the two 3/8" threads, the LED STICK 1 B can be mounted both horizontally and vertically to any microphone stand.

For even more flexibility in positioning the light, you can rotate the light bar so that the illumination is always directed to where you need it. For safe transport, the light bar has a wrist strap that allows you to hold the LED STICK 1 B securely.

SPECIFICATIONS

Product number	GLEDSTICK1B
Product type	Stands & Tripods Accessories
Type	Light bar
Material	Aluminum, Plastic
Color	Black
Length of light bar	330 mm
Number of LEDs	27
Color of LEDs	Warm White/Cold White
Number of Threads	2
Tread type	3/8"
USB Port	Type C, DC 5V 5,2A
Switches	on/off switch
Switch levels	Cold White; Warm White, Dimmer, off, on
Color temperature	Cold White (6000 to 6500 K); Warm White (3000 to 3500 K)
