
THE OPERA STAND

The Opera Stand is unique. It was first produced in 1976 and is still the only music stand in the world to feature an integral light. The light output is held at the perfect distance from the music tray and is carefully controlled so that it falls on the score and nowhere else. Our timeless original design allows the cable to be managed all the way down to the ground and supports full compatibility with all our lights and stand accessories.

RATstands

1. Super-tough black nylon coating makes the stand a pleasure to touch and, unlike other coatings, never chips.

2. The solid base gives added stability. Rubber feet ensure 3-point contact on uneven surfaces whilst protecting your floor and preventing clatter.

3. The special mounting socket enables the lamp to be easily removed in seconds.

4. Storage hooks eliminate excess cable trailing around the floor.

5. Constant friction is maintained by powerful springs in the friction joints of the tray and lamp which means they stay automatically at whatever angle you place them - there are no knobs to fiddle with or lose, and they will never go slack.

6. Opera stands nest, with or without lamps, for compact storage.

Specification

Weight of stand with Classic tray 5.9kg (13lb)

Weight of stand with Classic tray and mains voltage LEDlight 6.7kg (15lb)

Height measured from floor to lower edge of score adjustable between 62 and 127cm (24" and 50")

Tray size 44 x 33cm (17½" x 13")

Product code:

with Classic tray 52Q1

with wood tray 52Q2

with ABS tray 52Q3

The Opera Stand trolley

The Opera Stand trolley carries up to 22 stands. It has integral locking bars, 2 fixed and 2 swivel castors for easy steering, and is coated in tough scratch resistant epoxy.

Specification

L x W 173 x 63 cm (68" x 25")

Weight 25 kg (55 lb)

Product code:

The Opera Stand Trolley 59Q1
