Product Features

10 LED's provide a good and even spread of light across the page. The Star Light has two output levels, which enable the musician to control the brightness of the light, by simply pressing a switch on the clip.

The Star Light has a powerful spring clip, crafted from a strong plastic, which can be fitted to almost any make of music stand or surface.

This light is powered using a built-in Lithium-ion battery and can be recharged whilst it is in use, using the supplied charger. At it's maximum output, the Star Light will last over 5 hours between charges. The battery ensures longer periods between charge, whilst minimising the weight of the lamp.

The Star Light comes with a carry case included, allowing the lamp to be easily transported and safely stored.

Specifier's description

A battery-powered LED lamp with slim plastic housing. Attaches to music stands using a spring clip that also contains the integrated lithium-ion battery. The lamp includes a flexible gooseneck for adjustable positioning. Light can be used while charging. Contains 10 low-voltage LEDs with two selectable output levels. Rechargeable via DC Plug. Full charge time is approximately 3.5 hours. Supplied with charger and carry case.

Construction	
Structural parts	Plastic
Lamp housing	Plastic

Dimensions	
Profile of lamp as seen by user: thickness	20mm [0.8in]
Profile of lamp as seen by user: width	205mm [8.1in]
Rotation of lamp housing	As permitted by the gooseneck
Cable length (from clip, fully stretched)	2m (charger cable) [6.6ft]
Weight	0.25kg (without charger) [0.6lbs]

Optical characteristics	
Colour temperature	6000K
Light intensity at mid-point of an A4 score	320 / 75 W (high/low)

Electrical characteristics	
SELV (safety extra low voltage)	YES
Electrical power consumption	0.7 W
Running time on full brightness	5 hours
Charging time from flat	3.5 hours

Physical characteristics	
Cable type	Straight cable with PVC outer sheath (charger cable)
Electrical connector type	Plug-top charger with DC plug

General	
Warranty	2 Years
Part number	89Q1
Applicable standards	EN55015, EN55035, EN60529, EN60598
IP rating	IP50
Markings	CE
