CASTOR GLIDE

MANUFACTURED BY **RAT**stands

Give your digital piano the freedom to move

10
Year
Warranty

- Unbreakable powder-coated steel construction
- Complete with castor locks, ensuring the piano can be manoeuvred and secured easily
- Quality British design and manufacture
- Rubber shoes keep the instrument in position
- Available from all good music shops

Musisca Digital Piano Castors are high quality, heavy duty castors cleverly designed to fit almost any digital upright piano.*

Aided by a castor lock on each side, they allow easy manoeuvrability with scratch free wheels, protecting the base of the piano and the flooring.

The extra safe, low profile design raises the piano only 18mm off the ground, enabling you to play with the castors attached and also keeping a low ground clearance to aid stability. Non-slip shoes ensure that your piano will stay in position, even on the most polished of floors.

*Max. piano feet size: 54cm x 9.5cm. Max. load: 150kg

Please note: Many digital pianos have an extendable pedal support located under the pedal console, this should be correctly engaged before the piano is used, and raised before moving the piano.

THE ORIGINAL DIGITAL PIANO CASTOR

These heavy duty digital piano movers are shaped to fit virtually any model of upright style digital piano, particularly models by Yamaha, Roland, Casio and Kawai with the traditional 'front leg' design, including:

YAMAHA CLAVINOVA & ARIUS

Arius YDP series: YDP113, YDP121, YDP130, YDP131, YDP140, YDP141, YDP142, YDP143, YDP150, YDP160, YDP161, YDP162, YDP163 **Clavinova CLP series:** CLP280, CLP380, CLP5406, CLP5408, CLP430, CLP440, CLP470, CLP480, CLP525, CLP535, CLP545, CLP575, CLP585, CLP625, CLP635, CLP645, CLP675, CLP685 **Clavinova CVP series:** CVP401, CVP403, CVP501, CVP503, CVP601, CVP605, CVP701, CVP705 **Clavinova CSP series:** CSP150, CSP170

CASIO CELVIANO
