

EXPEDITION XP112A / XP115A

2-Way Active PA Speakers

Samson's Expedition XP112A and XP115A 2-Way Active PA Speakers present great options for those seeking premium sound with great value. Combining exceptional portability and power, these are ideal PA speakers for live sound setups. Perfect for bands, DJs, vocal presentations and much more, the Expedition XP112A and XP115A are versatile PA solutions for serious performers.

With 500 watts of output power, the lightweight XP112A (30lb/13.5kg) and XP115A (33lb/15kg) offer booming low-end sound with excellent high-end punch through their respective 12" and 15" extended range low frequency woofers and 1" high frequency drivers. The back panels of both these speakers offer an XLR-1/4" combo input for microphones and line level devices, as well as a contour equalization switch for customizing your sound. Each speaker also provides an XLR Link output connector for daisy chaining additional speakers to expand your PA setup.

Both speaker enclosures are constructed of solid polypropylene, ensuring roadworthy durability. The cabinet design also provides a tilt-back monitor positioning option and 1 3/8" speaker stand mount for flexible setup. For additional convenience and portability, the XP112A and XP115A offer both top and side carry handles.

Offering stunning sound, power and versatility to portable PA, front of house and floor monitor applications at an affordable price, Samson's Expedition XP112A and XP115A offer exceptional value to performers in search of serious PA support.
